

# **SIoux PRESSURE WASHERS FOR AVIATION AND GSE MAINTENANCE**

## **MOBILE PRESSURE WASHERS CLEAN GSE EQUIPMENT**

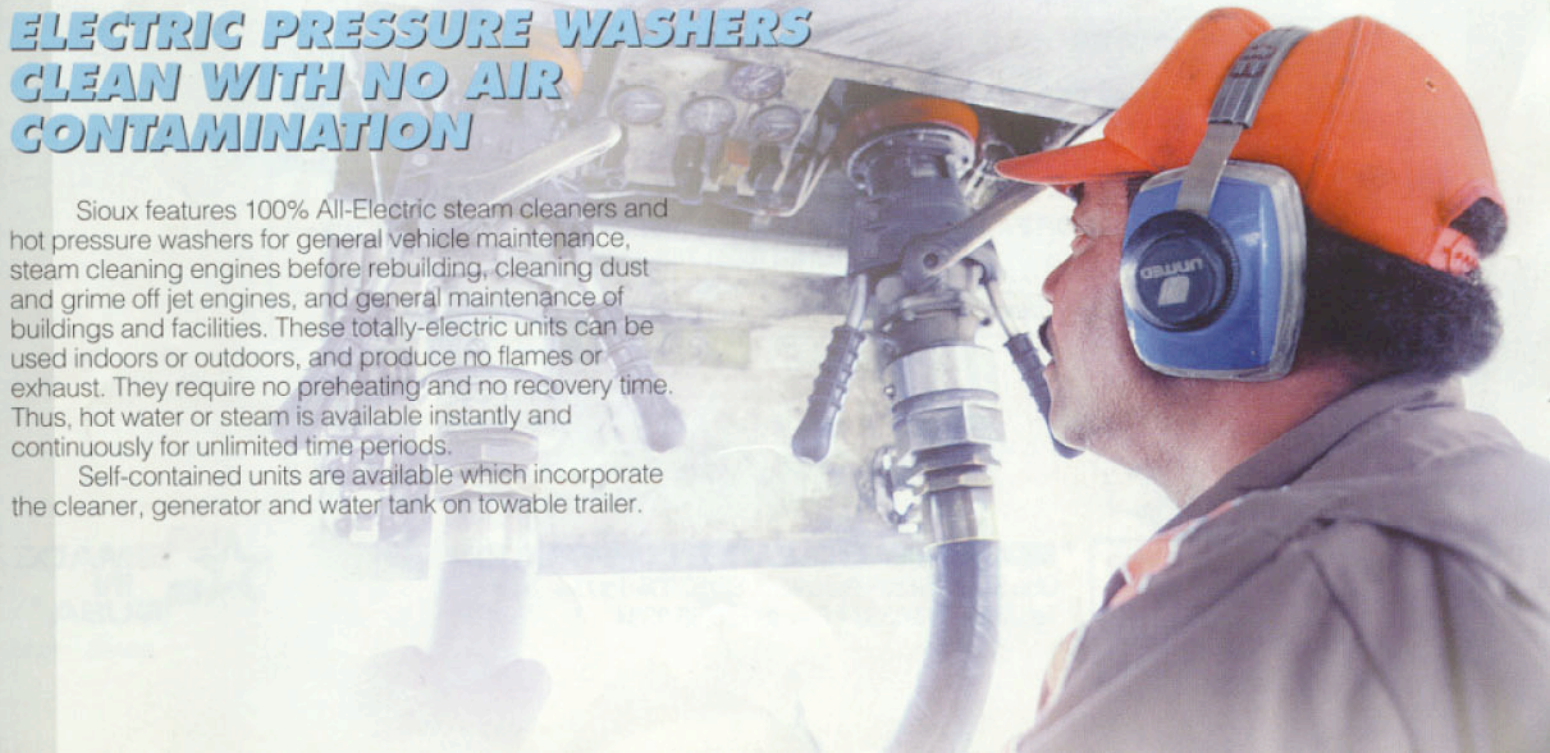

Sioux's mobile hot pressure washers and steam cleaners are great for maintenance of ground support equipment and cleaning aircraft bodies. Units can be mounted on over-the-road trailer for cleaning at remote

locations. They are excellent for cleaning aircraft without damaging painted surfaces, windows, rubber seals and plastics. Sioux offers 60 standard models of mobile hot pressure washers. Ratings are 120-360 GPH, 500-3000 PSI.

## **ELECTRIC PRESSURE WASHERS CLEAN WITH NO AIR CONTAMINATION**

Sioux features 100% All-Electric steam cleaners and hot pressure washers for general vehicle maintenance, steam cleaning engines before rebuilding, cleaning dust and grime off jet engines, and general maintenance of buildings and facilities. These totally-electric units can be used indoors or outdoors, and produce no flames or exhaust. They require no preheating and no recovery time. Thus, hot water or steam is available instantly and continuously for unlimited time periods.

Self-contained units are available which incorporate the cleaner, generator and water tank on towable trailer.

# DE-ICER/STEAMER MELTS SNOW AND ICE

The Sioux Model 200-GTT is a de-icer/steam cleaner which is ideal for the aviation industry. It is great for remote equipment cleaning and maintenance. The unit will de-ice equipment, as well as melt snow and ice off surfaces and clean runway lights and signs.

This unit doubles as a conventional steam cleaner which can be used year-round in the shop for ground support applications such as cleaning engines, equipment and buildings.

The 200-GTT is completely self-contained. It is mounted on a heavy-duty trailer, with a 240-gallon stainless steel water tank, gasoline generator and hose reel. The

generator provides auxiliary power, with receptacles for lighting and tools. The tank is ideal for water supply, chemicals or de-icing solutions. The unit provides 200 GPH steam. It can be powered from its self-contained generator, or from your existing electric panel.

Sioux offers 250 models of steam cleaners, pressure washers and combination units with oil, LP or natural gas firings. 100% All-Electric and explosion-proof models are offered for hazardous locations. Over-the-road trailers, water tanks, and engines are available, providing completely self-contained units. Ratings are 60-960 GPH, 100-3,000 PSI.

## APPLICATIONS

**Cleaning dust and grime off aircraft bodies**

**Cleaning jet engines before rebuilding**

**Cleaning buildings and facilities**

**Cleaning ground support equipment**

**Degreasing engines and motors**

**De-icing runway lights and signs, culverts, roofs, valves & pipes**

**Melting snow and ice off many types of surfaces**

**Cleaning grime and dirt off hanger walls and floors**

**Washing grime off baggage handling equipment, tows & trucks**
